

## 2.9 Solitude Park

### Site details

**Site Location:** Whiting Drive, Seelands

**RP Description:** Lot 28 DP 711921

**Total Area:** 0.2604 ha

**Site Description:** Solitude Park is a narrow wedge shaped park alongside a Crown road/drainage reserve. This park is predominantly covered in weeds and has no infrastructure. There appears to be no recreational activities occurring on this park. There is a rock shelf near the river bank that affords expansive views of the river. Whilst the river bank is not high there is no defined or clear access to the water from this park.
